

## Processors Help Design New Handtmann Preventive Maintenance Program

**Buffalo Grove, February 1, 2011** – Handtmann Inc. today announced the introduction of the **Handtmann Preventive Maintenance Program with No-Worry Service**. Developed with extensive processor input, the **Handtmann Preventive Maintenance Program with No-Worry Service** is a straight forward, effective, and efficient way to assure OEM lifetime precision for Handtmann stuffer and linker operations.

Handtmann **No-Worry Service** addresses key customer concerns for ease of use and reduced repair costs by efficiently managing all major recommended upkeep and scheduled maintenance topics, delivering greater operational dependability, and regularly optimizing equipment for performance, hygiene and safety.

The **Handtmann Preventive Maintenance Program** offers 1000 and 2000 hour service overhauls of all stuffing and linking lines in the processing facility and is designed to be customized to each plant's specific needs. All **No-Worry Service** includes a 45 Function guaranteed preventive maintenance process that assures OEM service quality, includes maintenance-based training, and delivers detailed recommendations and reporting for continuous improvement and seamless record keeping.

“Peace of mind” was identified by customers as an added value and the Handtmann OEM inspection program provides that added security in 6 key areas:

- Reducing operational risks
- Eliminating downtime
- Avoiding unplanned costly repairs that affect operations
- On-site maintenance-based training that supports their plant staff
- Detailed recommendations that maximize the value of their equipment investment
- Continuous care that increases the resale value of their Handtmann equipment

And, Handtmann takes **No-Worry Service** to a new level with satisfaction guaranteed or your money back!

The **Handtmann Preventive Maintenance Program** employs only highly trained team members capable of delivering “No Worry. No Hassle. No Problem.” Service efficiently. Each is a respected expert on every piece of Handtmann equipment in the processing plant: skilled in all required and optional checks, proficient at making all adjustments to exact OEM specifications, and experienced at providing the training and documentation customers need for a smoother running operation.

Get the most out of your capital investment by contacting your Handtmann representative for a detailed analysis to determine what the new **Handtmann Preventive Maintenance Program with No-Worry Service** can do for your plant's efficiency.
